

1. PEOPLE

1888 Mills has a profound influence on the communities we serve through the promotion of education, technology, healthcare and job creation.

Our innovation and focus on sustainability and efficiency allows us to maintain price leadership within our industry. By continuing to place importance on our **people** and our **planet** through environmental and social responsibility, we will all be prosperous.

2. PLANET

All 1888 Mills facilities have adopted an Environment Waste Management System compliant with ISO 14001. Our efforts in the U.S.A. plant were recognized by the Department of Energy for our participation in the *Save Energy Now* program.
