NATE'S TIPS

The Oprah Winfrey Show regular shares decorating advice so you can create a home you're crazy about

Nate with Oprah.

BREAK THE "RULES"

"There's no rule that says if your look is traditional you can't put an ikat frame in your living room. If you like something, get it. You'll find a spot for it. That's what makes the space your own."

DESIGN FOR COMFORT

"Comfort doesn't mean your space has to look unfinished or casual. Look for details and layers to add the perfect dose of personality."

TAKE YOUR TIME

"You don't have to decorate overnight. Buy what you love and fold those things into your home. With time, it will look layered and well-edited."

Ikat fabric adds exotic flair
